EMPLOYMENT READINESS PROGRAM
“Army Spouses: Talented, Global, Diverse Workforce. Our top
talent...Your bottom line.”

MISSION: To offer Army Family members career and job search skills and resources through a cohesive, standardized employment support program.

VISION: That all military Family members are provided employment support and the opportunity of career training and employment.

The Employment Readiness Program provides information and services in the areas of career planning and job search through workshops, seminars and one-on-one counseling.

The Army recognizes the importance of a spouse’s satisfaction with Army life, and the important role of spouse employment plays in this satisfaction.

Many military Families make retention decisions based on their Family’s financial stability, and spouse employment can be a key factor. Military spouses contribute more to Family income than their civilian counterparts.

Spouses face unique employment challenges, including frequent relocations, lack of career opportunities in-and around- the base, and financial stressors.

Army spouses are widely recognized for their strong work ethic, professionalism and corporate loyalty.

The Employment Readiness program provides information and training to assist in career planning and job search, including resume writing, interviewing, dressing for success and networking.

Employment Readiness provides information and referral services in the areas of employment, education, training, transition, and volunteer opportunities to give Family members the competitive edge needed to secure employment.
